MOHAMMED AREEFUDDIN

Flutter Developer

Zaheerabad City, Sangareddy District, Telangana, India | +91 73868 72991 | mdareefuddin2@gmail.com | github.com/Areef-uddin

PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience building and maintaining cross-platform applications for Android, iOS, and Web. Currently working on Zivbit at Starforce Facilities Management Services LLC, where I built the partner app, fix issues across the partner app and admin panel, and support AI-assisted social media content creation. Also building a personal AI-based video conferencing project using Flutter and Django, with deployment on Firebase Hosting, Render, and Vercel.

TECHNICAL SKILLS

Languages & Frameworks: Dart, Flutter, Python, Django
Mobile & UI Development: Cross-platform Android/iOS/Web, responsive layouts, Flutter widgets, Figma-to-code implementation, bug fixing
Backend & APIs: Django, REST APIs, WebSockets, API integration
AI & Integrations: Gemini API, AI-assisted content creation, AI-based video conferencing
Deployment & Tools: Firebase Hosting, Render, Vercel, Git, GitHub, Android Studio, VS Code

EXPERIENCE

Flutter Developer — Starforce Facilities Management Services LLC
10 Sep 2026 – Present

Zivbit app | Manpower and facilities services platform

- Built the Zivbit partner app using Flutter, contributing to the app's implementation and functionality.
- Fix and troubleshoot bugs across the partner app and admin panel to improve reliability and user experience.
- Support creation of AI-assisted Instagram posts and promotional videos for Zivbit's service marketing.

Flutter Developer Intern — Zerlak Technology Private Limited
Ended 5 Sep 2026

Remote

- Translated Figma designs into responsive Flutter screens and implemented UI according to design specifications.
- Integrated Firebase services and collaborated through Git/GitHub for source control and version management.

Flutter Developer Intern — Innoit Labs Pvt Ltd
3 Months

Hyderabad, Telangana

- Converted UI/UX mockups into functional Flutter screens and built responsive components using Flutter widgets.
- Collaborated with the development team using Git and GitHub.

PROJECTS

AI-Based Video Conferencing App
Personal Project

Flutter · Django · Firebase Hosting · Render · Vercel

- Developing a personal AI-based video conferencing application with Flutter as the frontend and Django as the backend.
- Deployed the backend on Render, the frontend on Firebase Hosting, and the admin panel on Vercel.
